**NORTH SLOPE BOROUGH  
PROPERTY TAX COMPUTATION - TAX CAP FORMULAS**

State of Alaska Statute AS 29.45.080 imposes a tax cap formula to determine the maximum allowable tax a municipality may levy and collect on oil and gas production and pipeline property. Due to the substantial tax base and limited population it is to the advantage of the North Slope Borough to use the method in AS 29.45.080(c) to calculate the amount of tax to be levied and collected. "AS 29.45.080(c): a municipality may levy and collect a tax on the full and true value of that portion of taxable property taxable under AS 43.56 as assessed by the department of revenue which value, when combined with the value of property otherwise taxable by the municipality, does not exceed the product of 375% of the average per capita assessed full and true value of property in the State multiplied by the number of residents of the taxing municipality."

Mill rates use reduced property tax values for the actual levy. Following are computations of the full value and reduced value mill rates.

THE NORTH SLOPE BOROUGH**

**WHEREAS**, Section 12.180 of the North Slope Borough Municipal Code establishes the Permanent Fund, with the intent of providing a source of operating funds at such time as revenues from property taxation, and other sources are unable to provide for the operations of the North Slope Borough; and,

**WHEREAS**, at a special election held on January 29, 2001, the North Slope Borough voters authorized an amendment to Borough Charter section 12.80, which the Assembly effected through Ordinance 84-6-3, to allow annual withdrawals of up to eight percent of the average total value of the fund at the end of the preceding three fiscal years; and,
