

NORTH SLOPE BOROUGH

Department of Wildlife Management

Map 2016-17_02 Ice Seal Baseline Study (NMFS Permit #15324)

Ringed seals (n = 12) were tagged on 1-2 July, 2016 near Barrow, AK. Also, two spotted seals were tagged on July 27, 2016; their locations will be sent out in the next map set. Map shows seal movements and latest locations. Note: males are indicated by triangles (▲) and females are indicated by circles (●).

Ringed seals #RS_16-02 and #RS_16-07 were tagged with CTD transmitters provided by ADFG as part of a collaborative project with our department. Funding was provided by the Collaborative Alaskan Arctic Studies Program (CAASP) and the Office of Naval Research (ONR).

Map archives and more information are available on our webpage (www.north-slope.org/departments/wildlife-management/studies-and-research-projects/ice-seals/ringed-seal-research). Seal research is conducted under NMFS permit #15324 and Animal Care and Use Committee Protocol #2016-23.

Ringed Seal Movements (as of 28-July 2016)
