RINGED SEAL LOCATIONS

The current locations (October 26, 2018) of two ringed seals tagged near Utqiagvik on July 9th and 10th, 2018 are indicated by a circle and triangle, designating one female and one male respectively. Note: data shown are unfiltered.

Map archives and more information are available on our webpage:
www.north-slope.org/departments/wildlife-management/studies-and-research-projects/ice-seals/ringed-seal-research

Note that the NSB Dept. of Wildlife Management has tagged seals in collaboration with the Arctic Marine Mammals Program of the Alaska Department of Fish and Game (ADF&G). Current maps for these seals are available at:
www.adfg.alaska.gov/index.cfm?adfg=marinemammalprogram.icesealresearch

Funding provided by the Shell Baseline Studies Program. Seal research is conducted under NMFS permit #20466 and ADF&G Animal Care and Use Committee Protocol #0027-2017-27.
