### **NOTICE OF NUIQSUT GAS PIPELINE INCIDENT**

On February 26, 2025, a vehicle accidentally damaged the NSB Nuiqsut Gas Pipeline. The pipeline was temporarily shut-in and after an inspection confirmed no leaks or loss of containment on the pipeline, gas flow was reinstated later that day at a reduced pressure.

Currently the Nuiqsut Gas Pipeline is operational and providing natural gas to Nuiqsut. Repair options are being evaluated between the North Slope Borough and ConocoPhillips, including timing of those activities, which are tentatively scheduled for June of this year. The primary objective is to ensure the work can be completed safely and with minimum interruption to gas supply to the community.

We encourage homeowners to check the condition of their back-up heater and ensure they have fuel available in the event of an unanticipated outage.

We appreciate your patience and understanding as we work to resolve this situation. If there are any significant updates, we will keep you informed. The North Slope Borough remains committed to the safety and well-being of all residents. Thank you for your cooperation.
